

# FALL HARVEST COLOURS TOUR

In the autumn season Grey County becomes alive with culinary delights and vibrant colours throughout the Beaver Valley. Roadside apple stands and markets open stocked with local produce are abundant along the Georgian Bay shoreline. Artist's studios are copious and open to the public during the autumn season, filled with local works of art.

## TIPS

• Be sure to check out the Meaford Scarecrow Invasion, held in the town of Meaford on the last weekend in September each year. Watch the parade, join in many of the festivals events or just enjoy the Scarecrow sightings throughout the municipality from mid-September to mid-October. <http://www.mdcc.ca/scarecrow/>

• Don't forget your camera during the fall season in Grey County. Be sure to take some panoramic photos from our many scenic lookouts. Make sure your camera is ready and all accessories are easy to access. There is nothing worse than running out of power, film or memory when the fall colours are at their peak. Take plenty of batteries, film and flash cards.
